CLINICAL PROGRAMS

Pediatric Hearing Clinic, including comprehensive audiologic evaluation, hearing aid services, assistive device selection and management

“La Clinica” St. Andrew’s Children’s Clinic, Nogales, Arizona, providing audiologic evaluation services as part of a multi-disciplinary clinic providing “free, specialized medical care to children living in Mexico who cannot get or afford the care they need in their home country.”

Adult Hearing Clinic, including comprehensive audiologic evaluation, hearing aid services, and assistive device selection and management.

Sertoma Arizona Hearing Aid Bank, providing reconditioned hearing aids to low income adults who would not otherwise be able to afford amplification.

Audiologic Rehabilitation Program, including community outreach programs, community lectures, Living Well with Hearing Loss Classes, website and resources and individual rehabilitation.

University of Arizona Hearing Conservation Program, including, employee training and full hearing evaluations for employees with suspected standard threshold shift.

Cochlear Implant Clinic, including candidacy evaluation and mapping services for children and adults.

Ocotillo Preschool Service Contract: Dr. Norrix, with our students, provides hearing screenings for students enrolled in the preschool and as part of the Child-Find program for preschool children in the Sunnyside School District.

Tucson Medical Center (TMC) Service Contract: Dr. Norrix provides services, including:
   1. Sedated and unsedated electrophysiologic evaluations for children failing hearing screenings at TMC, U of A Medical Center, Holy Cross Hospital in Nogales, and other local hospitals and birthing centers.
   2. Pediatric behavioral hearing evaluations (primarily under age five years)
Please note that the 2020 data reflect the clinic hours scheduled in Spring, 2020, prior to the impact of the COVID-19 pandemic. The reduction reflects the loss of one FTE clinical faculty position. Clinic hours were further limited during the pandemic, first by a lengthy complete clinic closer, and later by a return to service of approximately 60% of planned.

**AFFILIATED CLINICS FOR OFF-SITE CLINICAL ROTATIONS**
(Typically Available to Students During Their First Three Years of the Program)

**Amphitheater Unified School District:** Our students regularly complete rotations in educational audiology, doing hearing evaluations, participating in IEP meetings, and managing classroom equipment. (2-4 students per year)

**Banner University Medical Center:** Our students complete rotations that involve traditional audiometry, vestibular assessments and assessments for and management of a variety of implantable devices (Cochlear Implants, BAHA, Esteem). Often rotations at Banner UMC are part of multi-center externships. (6-10 students per year)

**Children’s Clinic (CCRS):** In Tucson, most children with hearing loss are fit with hearing aids and cochlear implants through CCRS. Often rotations at CCRS are part of multi-center externships. (1-2 students per year)

**St. Joseph’s Hospital Balance Center:** Our students do rotations in this multidisciplinary center doing audioligic and comprehensive vestibular evaluations. Vestibular evaluations include VNG, computerized dynamic posturography, and VEMP. Students also have the opportunity to participate in interprofessional team meetings with the physical therapy team. (5-6 students per year)

**Southern Arizona VA Healthcare System:** Our students regularly complete externships at SAVAHCS, gaining experience in adult assessment, amplification, cochlear implants, tinnitus management and vestibular assessment. (1-3 students per year)

**Sonora Hearing Center:** Our students complete rotations at this private practice primarily focused on adults, amplification and cochlear implants.
Tucson Ear, Nose, & Throat: This is the largest ENT practice in Tucson. Our students do rotations in their Audiology doing audiologic and vestibular evaluations as well as hearing aid and cochlear implant fitting and management. Often rotations at TENT are part of multi-center externships. (2-4 students per year)

Valley Ear, Nose & Throat: Our students do rotations in this fast-paced clinic primarily doing audiologic evaluations and working with hearing aids. (1-3 students per year)

Most clinical educators have more than five years’ experience. All their CVs are available for review.

Methods of Recognizing the Efforts of Our Off-site Clinical Educators:

- University Privileges including I.D. Card, netID and email, Library Privileges including access online and locally to all professional journals, and access to the campus rec. center and discounts at the bookstore, rec. center and to University events.
- Free or substantially discounted admission to departmental conferences/workshops
- Trust the Audiologist Who Teaches Newsletter
- Invited to and honored at our Spring Graduation

EXTERNSHIPS
We have arranged for externships at the following facilities in the last 6 Years:

Arizona Ear Center, Phoenix, AZ
Arizona Hearing Specialists, Tucson, AZ
Banner University Medical Center, Tucson, AZ
Boston Children’s Hospital, Waltham, MA
California Hearing and Balance, La Jolla, CA
Center for Neuroscience, Tucson, AZ
Children’s Clinic, Tucson AZ
Children’s Hospital of Wisconsin, Milwaukee, WI
Cincinnati Children’s Hospital, Cincinnati, OH
Dartmouth Hitchcock Medical Center, Lebanon, NH
ENT House of Hearing, Draper, UT
House Ear Clinic, Los Angeles, CA
Loma Linda University Healthcare, Loma Linda, CA
Marion Downs Hearing Center, Aurora, CO Mayo Clinic, Scottsdale, AZ
Mayo Clinic, Scottsdale, AZ
Naval Medical Center, San Diego, CA
Nevada ENT, Reno, NV
O.C. Physicians Hearing Services, Mission Viejo, CA
Oregon Health and Science University, Portland, OR
Oro Valley Audiology, Oro Valley, AZ
Paprella Ear, Head & Neck Institute, Maple Grove, MN
Pen State College of Medicine, Hershey, PA
Seattle Children’s Hospital, Seattle, WA
Shohet Ear Associates, Newport Beach, CA
Thomas Jefferson University Balance & Hearing Center, Philadelphia, PA
UC Davis Medical Center, Davis, CA
University of Arizona Hearing Clinic, Tucson, AZ
University Health System, San Antonio, TX
University of the Pacific Hearing and Balance Center, Stockton, CA
University of North Carolina Hearing Clinic, Chapel Hill, NC
University of Texas Health, San Antonio, TX
VA Hospital, Providence, RI
VA Hospital, Tucson, AZ
